***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 1-8, and 15-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite. The claim language is so indefinite as to obscure what's being claimed, i.e. A received packet appears to be received from an ingress port, i.e., ingress port 78-fig.3/fig.8, and proceeding toward an egress port 94-fig.3/fig.8, however, the limitation "to determine location of the routing information in the routing table" appears to refer back to the line cards. In other words, since there is no reference of which side the received packet with respect to which type of packet being processed, i.e., L2TP control packet, PPP, signaling packet, or data packet, is being outputted it is impossible to ascertain the scope of the claim as to what's being claimed. The same remark applies to claim 15.

***Allowable subject matter***

2. Claims 9-14, and 25-27 are allowed.
3. Claims 1, and 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
